

## FEEDBACK ACTION TAKEN REPORT 2020-21

Adi Shankara Institute of Engineering and Technology employs a systematic feedback process involving various stakeholders such as students, alumni, teachers, parents and employers. The feedback from these groups is consolidated by the Program Assessment Committee (PAC), which then communicates with the Internal Quality Assurance Cell (IQAC). The IQAC collaborates with the Administrative Office, Management and the Academic Council to analyze the feedback, develop action plans, and implement necessary actions. This structured approach ensures continuous improvement and alignment with the institution's quality standards, thereby enhancing the educational experience and overall institutional performance.

Feedback from stakeholders is crucial for the continual improvement of the institution. Student feedback covers aspects such as lab adequacy, learning materials, faculty support and career development, measured on a 5-point scale. Teacher feedback focuses on academic performance, syllabus implementation and curriculum objectives, also using a 5-point scale. Alumni feedback evaluates curriculum effectiveness and overall support, providing insights into program effectiveness. Employer feedback assesses the alignment of the curriculum with industry needs, informing curriculum updates and ensuring relevance. These feedback forms and action taken reports are periodically published on the institution's website, demonstrating transparency and commitment to quality education.

Sl. No	Suggestions	Action Taken
1	Upgrade lab facilities in material testing under mechanical department	Implementation of Non Destructive Testing Laboratory under mechanical engineering department.
2	Upgrade industrial knowledge	Conducting webinars under core topics and skill developments under each department.
3	Upgrade practical experiences	Conducting various workshop and training activities under respective departments.
4	Students are willing to update their knowledge through self-learning( MOOC Courses)	Training and certification courses were conducted through various online modes such as NPTEL/SWAYAM, Coursera, etc.
5	Provide exposure on industrial training	Arranged various industrial visits and also various MOU'S have been signed with companies in conducting training.
6	Requirement to build society needs	Effectively organizing social service activities yearly.
7	Develop Coordination capabilities	Encourage students to coordinate events in technical and project exhibitions.
8	Funded projects	Motivate students from each department to apply for funding projects under university and Gov. approved bodies.
9	Encourage Alumni interaction	Encourage students for alumni interaction on their experience in working atmosphere.

10	Motivational/ mentoring session	Mock Interview for final year students were conducted department wise.
11	External affairs	River rejuvenation project in association with water resources department Kerala.
12	Conduction of Conference	International Conference Organized by Department of Computer Science and Engineering – Adi Shankara Institute of Engineering and Technology, Kalady, Kerala and TECHOWN hosted the International Conference on Innovative Technical Advances in Disaster Management.
13	Faculty innovations	Kerala Startup Mission has validated the emergency ventilator developed under the supervision of Asst. Prof. Ajay Basil Varghese (Dept. of CSE) and issued a purchase order for manufacturing 10 units of Jeeva Vaayu Ventilator (JV 50) to help overcome the COVID19 pandemic.
14	GATE Coaching	Department conducted GATE demo Classes and Orientations.
15	Industrial Interaction	Department have taken initiatives in bringing more industry persons for invited talks, webinars, interaction with students etc.
